

Just back in the forest, these properties benefit from a great central sun-soaked meadow that hosts several trail junctions and shared garden plots. The perfect balance of privacy and community makes The Meadows ideal for a life of outdoor activity and neighbourly connections.

With substantial frontage along the main road, Lot # 24 slopes toward the gardens through a series of beautiful rocky outcroppings. Sunlight from the road and the driveway penetrate deeply into the property with filtered light coming through the forest from the meadow. A band of mature hemlock and maple offer a natural buffer from the road.
