

Just back in the forest, these properties benefit from a great central sun-soaked meadow that hosts several trail junctions and shared garden plots. The perfect balance of privacy and community makes The Meadows ideal for a life of outdoor activity and neighbourly connections.

Squarely at the south end of the meadow, Lot # 30 has a long and commanding view over the community gardens. Flanked on one side by the Woods Trail, this property is at the heart of the Meadows hamlet. Light from the open garden meadow to the north, makes this home site bright and airy.
